## Toilet Paper Rewinder

As you know when you order a machine we build a new one so the model of the machine will be the year you purchase it. A contract will be drawn up when purchasing any machinery.

This machine can make kitchen towels.

The working area of the machine is 2,370m.

It works with a 5Kw motor, a 5 Kw drive, 3 phase electrical wiring.

The rider roll, perforation roll, embosser and back stand belt are all pneumatically operated.

The machine makes 3+ logs of 500 sheets pe
